

MasterPeace™

Validating Detoxification: 2023 and 2024 Studies

(0.1nm to 0.2 nm) Transmission Electron Microscopy Micrograph of the Colloidal Hexagonal Construct of MasterPeace™ Zeolite Z™ in an aqueous solution of SOLergy™ and Sea Minerals™

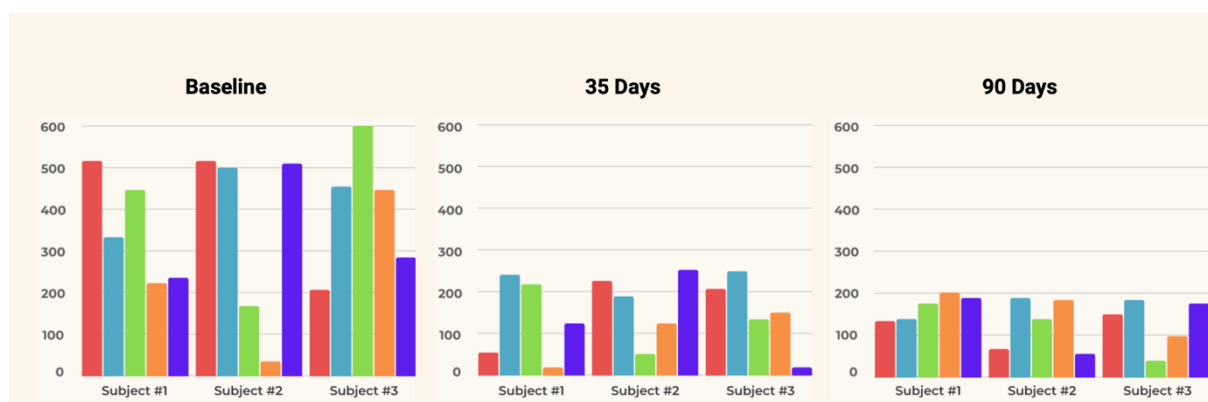

Caroline Mansfield, Naturopath
Study Co-Ordinator, Clinical Research Analyst

Exclusive 2023 Pilot Study

Environmental Toxins Removal – Intracellular Toxin Examination - iEC Blood Analysis

The chart below represents the reduction of environmental toxins from the blood of three test subjects, over a three-month period, providing a visual representation of these significant findings.

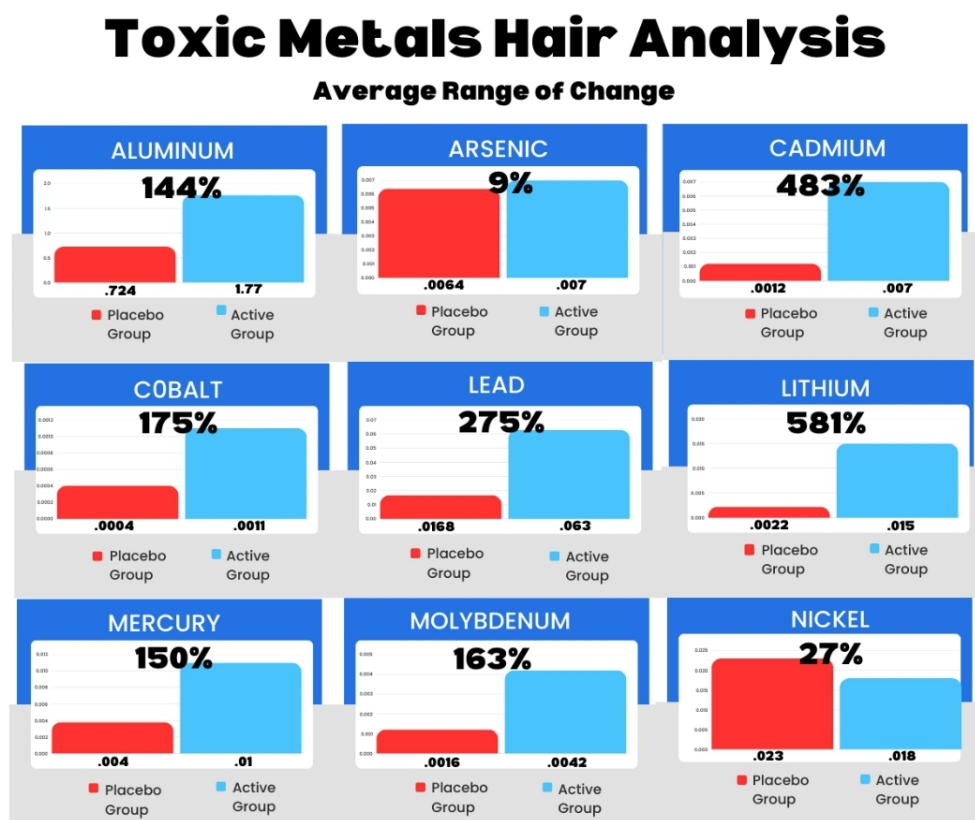

Reductions in Graphene Oxide, PFOAs, PFOS, Polyethylene and Polypropylene

Exclusive 2024 Blinded, Placebo-Controlled Study: Detox Findings from a 24-Participant Cohort

Heavy Metal Excretion in Hair (Active vs. Placebo)

The chart below represents the average range of change values, providing a visual representation of these significant findings.

Heavy Metal Excretion in Urine (Active vs. Placebo)

The chart below represents the average range of change values, providing a visual representation of these significant findings.
