

Where are our sheriffs??

Our ARTICLE III, Amendment VII Civilian common law Court of record has made numerous visits and relentless communications to our county sheriffs on Oregon. Why?

Because our sheriffs are our first protection against governance over-reach. It is our county sheriffs that should be there to assist seniors to prevent their eviction from their home and all they possess. It should be our county sheriffs who protect and defend the people from a corrupt court system, rather than ticketing them or supporting the illegitimate Amended ARTICLE VII courts. Our sheriffs seem to be avoiding any engagement with us -- the people reaching out for a conversation about their refusal to see us. Contact requests are met with cricket sounds.

Where are our sheriffs?

It is significant that they take a proper oath to The Constitution (circa 1859) with its original jurisdiction -- that is, to the people rather than to a corporation; to our Creator, that is with God included. Such a dejection, an oath, is needed for there to be remedy in our system of governance.

Let's get this ball rolling. It just takes one of you to make a difference, to get it started, to assist in awakening your colleagues in sherifdom. Let it be so.
