

Sheriffs one and all!

The ball is in your court! We kicked it into your jurisdiction – which is separate from ours, alas. It really is one team – you and us. It is, or rather should be one jurisdiction. Your training – probably from childhood – has been to join the realm of the corporate jurisdiction which is the entity that pays you to do what you do.

You can join our team – that of the people – with a simple turn of a mind-switch. A tool to assist in this process is to consider taking a proper oath to the proper constitution (with its original jurisdiction) and with the Laws of Nature and of Nature's God, as stated in our unanimous Declaration of the thirteen united States of America.

The last several months we have posted and made publicly available what we consider a "proper oath" for the persons in our governance. Sheriffs are our first effort at insisting on a proper oath. For it is the sheriffs who are in their county position to protect and defend the people from ticketing or sending people to the illegitimate Amended ARTICLE VII courts that should not be; from governance over-reach and taxation that takes seniors' equity, their forever home and all they possess by enforcing convictions.

It's like a shift in the mind. It is the recognition of one's allegiance to life and that which is God-given. Rather than criminalizing living God-made beings for a dead CORPORATE entity, our sheriffs are our first protection against governance over-reach.

Taking a solemn oath -- is needed for there to be remedy in our authoritative system of governance.

Once a sheriff cognizes the importance of the proper oath, they can see themselves as one with the people, rather than a corporate entity meant to enforce our compliance to the bidding of the state. Therein is offered greater freedom, cooperation and peace in all our dealings.

Let it be so.
